## Foreword

The purpose of this report is to give to the citizens of Rutland an analysis of expenditures made by your City Government during the year 1942 with a review of activities and services rendered.

This is the fiftieth report issued to the citizens of Rutland and the type on the cover is a reproduction of the original charter granted to our City.

This year our primary interest is in winning this war as rapidly and as completely as possible To do so, we shall be called upon to give and even sacrifice in order to support every move and plan toward such an end.

The Schools are now able to offer a full trade school course for the youth of Rutland. Many of our young men have been able to take their places in defense industries during the war and to be assured of a desirable occupation after the war.

Constructive criticism is always welcome. Should any questions arise, the official records of the City are open at all times for inspection by any interested citizens or by the representatives of any civic organizations.

State of Vermont.  
= Office of the =  
Secretary of State.

**I** hereby certify that the foregoing  
is a true copy of an act enti-  
tled,

An Act  
to incorporate the  
City of Rutland.

approved November 19, 1892.

## MAYOR'S MESSAGE

### *To the Citizens of Rutland:*

In accordance with custom I submit my annual message, giving an account of the affairs of the city for the year 1942, to be incorporated in the fiftieth annual report of the City of Rutland.

Inasmuch as the reports of the heads of the various departments are detailed and comprehensive and show exactly where and how the money of the city has been received and spent, I see no need of my going into an exhaustive discussion of the various reports. However, there are a few items to which I would like to call your attention:

Again this year we have been able to make reduction in the amount of the deficit. The deficit for the year 1942 was \$30,901.40. This is approximately \$70,000 less than the deficit during the year preceding my first term in the office of Mayor. During the year 1942 new fire apparatus was paid for at a cost of \$8,213 and wage increases, necessitated by the increased cost of living, were granted to city employees. Disregarding these two items of additional expense we would have been able to practically operate within our \$3.70 tax rate in 1942.

The bonded debt of the City of Rutland when I took office was \$779,147.53 and it is now \$693,365.87. While this may appear like a comparatively small reduction it must be taken into consideration that there have been various bond issues voted by the people during my administration which amount to \$230,000.

The tax rate when I took office was \$4.45. This was reduced to \$4.35 the first year, \$4.20 the second year, \$4.10 the third year of my administration, and the coming year will see a tax rate of \$3.90 (not including any increased amount to schools), this being a total reduction of 55 cents in the tax rate.

I fully realize that changed economic conditions account in a large way for the reduction in expenses and tax rate. Nevertheless, I feel that the matter should be called to your attention.

For some time considerable effort has been made to induce new industries to locate in Rutland. The Committee on Industrial Relations of the Board of Aldermen, working with officials of the Chamber of Commerce, have spent much time and effort

Bonded Debt:	Total	Less Sinking Fund	Net
Dec. 31, 1935.....	\$1,202,000.00	\$236,248.84	\$965,751.16
Dec. 31, 1936.....	1,155,000.00	256,233.96	898,766.04
Dec. 31, 1937.....	1,070,000.00	224,651.50	845,348.50
Dec. 31, 1938.....	953,000.00	173,443.28	779,556.72
Dec. 31, 1939.....	968,000.00	188,852.47	779,147.53
Dec. 31, 1940.....	869,000.00	88,907.53	780,092.47
Dec. 31, 1941.....	874,000.00	97,690.34	776,309.66
Dec. 31, 1942.....	742,000.00	48,634.13	693,365.87

during the past year in this respect. Some progress has been made, but the ultimate goal has not been reached.

As you know, the Federal Government has constructed an airport in the Town of Clarendon, on land purchased by the City of Rutland. This municipal airport has been named "MacArthur Field."

The construction of the airport is under the supervision of the War Department, and, inasmuch as work has not been finished, the airport is still under the jurisdiction of the War Department and has not been turned over to the City of Rutland.

When work on MacArthur Field is completed by the War Department, Rutland will have a first class airport which will be of great benefit to the community in years to come.

Tax collections in 1942 exceeded our expectations, due primarily to the sale of the Colonial Marble Company property located in Rutland and to the payment of \$23,911.84 back taxes due the city. We are hoping that in the near future some industry will be established in the Colonial Marble property.

Present conditions necessitate the need of the most rigid economy. Many place of business will be forced to curtail activities because of merchandise being frozen by government orders, resulting in inability to purchase and sell stock. Inventories of stock on hand as of April 1st are bound to be much lower than in previous years. This, coupled with the fact that many of our citizens are in the armed forces, thus reducing our poll tax returns, is bound to reduce our revenue.

The Work Projects Administration's program in Rutland, as elsewhere, is being terminated sometime during the current month. On behalf of the citizens of Rutland, and personally, I wish to express my appreciation for the assistance given to the city by the Work Projects Administration, and particularly to Mr. Harold Radigan, State Administrator of the Work Projects Administration.

Naturally the minds of all at this time are directed toward the defense of our country and the preservation of our way of life and the liberties that we all hold dear. I feel that it is only fitting that we should mention Rutland's excellent Civilian Defense organization. Much time and effort has gone into the creation of a truly workable local defense machine. I wish to express my sincere thanks to all who have made this organization possible. Likewise there is no limit to the gratitude we owe our

young men and women on land, sea, and in the air, who are defending us, our country and our freedom.

At this time I wish to express my gratitude to the citizens of Rutland, who, for the past twenty-seven years, have honored me by electing me at various times to the offices of Assessor and Mayor of the City of Rutland, and as County Senator.

In conclusion, I wish to thank the members of the Board of Aldermen, officials and employees of the City of Rutland for the combined effort and efficient service which they have rendered during the past year.

Respectfully submitted,

HENRY B. CARPENTER,  
Mayor.

## Report of the BOARD OF SCHOOL COMMISSIONERS

*To the Mayor, City Council and Citizens of the City of Rutland:*

The Board of School Commissioners has been able to carry on a normal school program during the past year in spite of limitations imposed by war conditions. Some of our teachers have entered war service, some equipment is impossible to get and additional burdens have been put upon the schools but the children have lost little of the usual school values. We were very fortunate to have provided for a trade school department where our youth can be better fitted for war industries and for war itself.

Our school enrollment has steadily declined during the past few years. Decreased enrollments are reported from all parts of the United States with Vermont showing a decrease of 10,000 pupils from June 1938 to December 1942. Many areas with large defense projects show an increase in enrollment but the country as a whole has fewer and fewer children to send to school.

There is a natural expectation that with a decline in enrollment there will be a corresponding decline in costs. We shared this opinion but circumstance and good management have decreed otherwise. In 1930 we employed a total of 103 people in the school department at an annual salary for all of them of \$149,126. In 1942 we employed 92 people, not including repair men, but the total salaries paid amounted to \$151,513. We are

paying our teachers much better salaries than we were in 1930 but this is done to provide better school service for our children.

We have thought that it was good policy to employ a considerable number of men, especially in the high school, and circumstances have conspired to promote this policy until about fifty percent of the faculty of that school are men. This is a desirable situation but it costs more. The introduction of shop courses has increased the cost per pupil because all shop instructors are men and because the classes are limited in size. The increased cost for shop courses does not increase the net cost to the city because we receive government aid on account of them. In 1941 we received \$1,959.76, in 1942, \$3,755.30 and we anticipate a return of \$8,300 in 1943. Our salary schedule is such that we can attract the best teachers in the state for grades below the high school. At the upper level we compete with all New England for teachers but in spite of this we have acquired a very excellent faculty at our High School. Salaries paid in Rutland are in line with those paid in Burlington.

Average 57 women—Rutland.....	\$1,525
Average 81 women—Burlington.....	1,588
Average 19 men—Rutland.....	2,437
Average 19 men—Burlington.....	2,334

The cost per pupil for all schools in Rutland is likely to be higher than the average for other cities where similar conditions prevail because our city is spread over a relatively large area. In the early history of the city it was evidently thought desirable to have small schools in many neighborhoods. This policy, over which your present Board has no control, increases the cost to a considerable extent. For instance we could accommodate all our elementary children in three buildings instead of six and thereby eliminate the cost of three janitors, the cost of fuel, light and repairs for three buildings without much increase in cost at the buildings used. The cost of teachers, moreover, could be reduced if it were possible to instruct elementary pupils in fewer buildings. Last year we reduced the number of teachers by three and the next school year we plan to employ two less than at present. The number of teachers has been reduced from 88 at the peak in 1932 to 76 at the present time.

In considering the fact that school costs have not declined with school enrollment, we should bear in mind that the classes were too large for effective teaching at an earlier date while now the classes are smaller and each child has, therefore, a better chance for success.

We have lost ten teachers as a result of the war, eight to the armed services and two to other services. So far we have been

able to fill all positions by regularly employed teachers or competent substitutes. We do not anticipate much trouble in filling most vacancies but we may have trouble in finding instructors in shop courses. We have suspended our rule against the employment of married teachers so as to facilitate the operation of the schools during the war period. Many of the teachers available to fill vacancies caused by war demands are former teachers who have married and are living in Rutland.

The employment of a plumber and a painter on a full time basis has proved to be so economical and satisfactory that we have decided to improve our repair service by the employment of a full time electrician. This action was taken after it was found that we had over 3,000 electrical devices, large and small, to keep in repair and after we realized that we were paying more each year for repair service than it would cost to employ a man full time.

We have reduced the cost of transportation of school pupils this year by limiting such services to the children of the first six grades. The demands of the war may compel us to discontinue this service for all pupils.

We go along with our fellow citizens in the belief that winning the war comes ahead of anything else. But we all believe that the education and health of our children is so important that to

win the war at the expense of the children is to lose it after all. The people of Rutland will support the war and they will take care of the children.

Respectfully submitted,

BOARD OF SCHOOL COMMISSIONERS,

By F. E. Quigley, *President.*

Rutland, Vermont  
February 1, 1942.

## Report of the SUPERINTENDENT OF SCHOOLS

*To the Board of School Commissioners, the Mayor, the Board of Aldermen, and the Citizens of the City of Rutland:*

The world war presents a challenge and furnishes an opportunity to the schools of America. The challenge is to do better and in a shorter time the job belonging to the school and to prepare young people immediately for war service and war production. Teachers now have an opportunity to vitalize the work of the class room by showing its relation to the war effort and to capitalize the desire of youth to have a realistic part in the national program. The tasks assigned to the schools in connection with rationing, salvage and stamp sales are most welcome because we all wish to utilize the energy and zeal of the twenty-seven million school children of America.

The sale of stamps and bonds has been successful during the past year in supporting our government but has been much more successful in teaching children to save. We have, for some years, sought a good scheme by which the children could be effectively taught to be thrifty. War is bad but this phase of it is good for the children. It is our hope that every child will have a chance to get the thrill that comes from ownership of a United States Bond. Teachers and pupils have purchased stamps and bonds in the amount of \$42,816. The average for the last four months of 1942 was \$1,855.

The actual number of tons of scrap of various kinds collected by the school children of Rutland has not been great but the effect on them has been important. Actual physical toil in the service of our country produces the surest kind of patriotism. The children, moreover, have had a decided influence on their parents in inducing them to "bring in the scrap." We Americans are very wasteful but perhaps one of the good things to come out of the war will be a desire to conserve all our resources.

The schools have aided in the war effort by:

1. Selling stamps and bonds.
2. Rationing sugar, gasoline and fuel oil.
3. Gathering scrap metal and rubber and fats.
4. Knitting for the Red Cross.
5. Making cards for Red Cross Kits.
6. Acting as Airplane Spotters.
7. Joining Junior Red Cross 100%.
8. Sending Christmas cards to disabled veterans.
9. Furnished rooms for many war training classes.
10. Furnished rooms for Red Cross classes.
11. Provided movies of war activities.
12. Conserving clothing and toys.
13. Promoting Victory gardens.
14. Aiding local rationing board.

15. Raising the money to buy a Jeep.
16. Improving our program of physical education. High School commandos.
17. Putting on war time plays.
18. Making posters to aid in sale of stamps and the collection of material for war uses.
19. Writing letters to men in service.
20. Using schools as air raid centers.
21. Making surgical dressings and sewing for the Red Cross.
22. Collecting silk stockings.
23. Practicing air raid drills.
24. Providing hot lunches for school children.
25. Making tools for war production.

Under the leadership of the principals of our schools, sugar, gasoline and fuel oil have been rationed to the people of Rutland. Over two hundred teachers and volunteer workers, in three days, issued the first war ration book to every person in the city. We expect that the elementary schools will be used as sites for issuing the general war ration book in the near future. These are welcome assignments because we wish to do our part in the war effort and because it gives the schools a chance to render another service to all the people of our community.

No one knows how long the war will last but four years is as good a guess as any even though we hope it will be less. If four years is a reasonable guess, most of our young people fourteen years of age or over will be in the armed forces or in some occu-

pation connected with the war effort as soon as they are eighteen. It would seem, therefore, that our best effort during the next four years should be directed toward preparing these young people for their probable immediate job. While we are doing this we can, of course, continue many of the values of education which have always existed if a liberal education was the end in view.

Our high school faculty under the leadership of Mr. Frank Mayo, principal, has given due consideration to the demands of the times and have modified the program of studies to help meet the new situation. The courses in mathematics and science have always been such as to be of great value to boys going into the army and navy. New courses in pre-aviation, basic mathematics and fundamentals of electricity have been introduced. Forty or fifty boys and some girls are receiving training in gas engines, auto mechanics and machine shop. We have under consideration a plan to put a class of girls in the machine shop for a half year. The high school has responded well to the war demands of the country. Many more changes will probably have to be made in 1943 and 1944. To help meet the needs of our country for labor we may find it necessary to operate the high school with less vacation so that our youth can work on farms and in factories at certain seasons. Our pupils and teachers will meet any demands which are possible in helping to win the war.

Physical fitness is a basic need for the armed services, or for that matter, production on the home front. Our program of

physical education, started nearly fifteen years ago, helps to meet the demand for physical stamina. At the high school level special effort is being made to "harden" the boys through the regular athletic program and by means of an improved program for boys not interested in the usual sports.

For the children below fourteen years of age, the best policy, as far as can be seen now, will be to continue with the usual school program and seek to prepare them better for the problems of peace. The school finds the children more interested in some parts of our school program on account of the war effort. We have a better chance to teach effectively our health program, including nutrition, than in the past.

The children of the elementary school will, of course, continue to buy stamps, collect scrap, and do a great many other war chores suitable to their age. The teachers find it possible to teach geography more effectively than in the past. The children, like their parents, have become aware of parts of the world which up to now have been remote from their interest. Teachers have decided to put more stress on decimal fractions because the war has brought it forcibly to attention that the business and industrial world thinks and works in such terms rather than in common fractions.

In times of stress the school has a calming influence on the children. The regularity of its program and the truth of its teaching produces a feeling of security which tides many a child over a rough time in life. Teachers are making a conscious effort to promote an understanding of our neighbors and our allies. It does not seem possible that the war will ever bring the hardships to the children of America that have come to many children the wide world over. It is our hope that the children of all Americans will know that God has been good to us and redouble our efforts to make a better world and a permanent peace.

Respectfully submitted,

W. W. FAIRCHILD,  
Superintendent of Schools.

Rutland, Vermont  
January 29, 1943.

RUTLAND FREE LIBRARY

## RUTLAND FREE LIBRARY

Report of the  
LIBRARIAN

City's appropriation—\$6,500.00

To the Honorable City Council:

The 57th Annual Report of The Rutland Free Library is submitted:

The following is the statistical record of the Library for the year 1942:

770 books were added to the collection; of these, 511 were purchased, 87 were gifts, 52 were magazines which have been bound and 120 books were transferred from the pay collection.

101 books were replaced and 289 withdrawn. The total number of books in the Library, January 1, 1943, is 34,706.

The circulation for 1942 was 101,607.

The largest daily circulation was February 24th, when 755 books were borrowed, and the smallest day's record was September 9th, when only 126 books were charged out.

The average daily circulation from the library was 332, and the average monthly circulation was 8,351.

593 people registered at the Library for borrower's cards.

8,057 volumes were repaired.

55 magazines were subscribed for, and 48 donated.

The Library was open 301 days for circulation and 48 days for reading and reference.

#### CIRCULATION

The Circulation for 1942 was somewhat smaller than in the preceding year. Increased employment for men and women has lessened the time for reading and, in addition to this, many of our readers have moved from Rutland.

In various ways the Library can help in a war-time program, that is, by supplying necessary books on practical defense, books of First Aid, information concerning all branches of service, war-time cookery, etc.

These practical books are supplemented with others on the Allied Nations, for we are now becoming acquainted with countries with which we were unfamiliar before the war.

#### REFERENCE

Our Reading Rooms were often crowded in the evening with students who came in for reference work. Whereas, they were quite adept at locating material for themselves, much assistance was needed.

The Library is glad to do all possible to aid the student body and, in this way, to enrich the lives of our young men and women.

#### JUNIOR DEPARTMENT

Many young visitors enjoyed the Junior Room. Some came in to browse leisurely among the shelves for reading, while others came for school work.

Books were sent to the District and City Schools and many books were borrowed by teachers.

Story Hours and Book Reviews were given in each school and once a week at the Library.

#### READING

The American people will learn, as did the English, to adjust themselves to war and to budget their time to include reading. They will realize more than ever the value of books, not only for information, but for mental relaxation which is necessary to all at this time.

Books which have proved of unusual interest during the year are the following:

Dragon Seed, by Pearl Buck.  
Remember Pearl Harbor, by Blake Clark.  
The Robe, by L. C. Douglas.  
Paul Revere, by Esther Forbes.  
France on Berlin Time, by Thomas Kernan.  
Assignment in Brittany, by Helen MacInnes.  
Last Train from Berlin, by H. K. Smith.  
The Song of Bernadette, by Franz Werfel.

We greatly appreciate the gifts received during the year. One of the most important was the "Inventories of the Towns, Villages and the City Archives of Vermont."

Herbert Hoover says:

"There is but one road to progress in our complex civilization—That is, more building of character and more understanding. That can only partly be obtained from the home, the school, and the press. There must be life-long supplement of reading good books, for which our libraries are our source and mainstay."

We are grateful to the local press for their continued courtesy in keeping the public in touch with Library interests. I wish to express my thanks to the Trustees and Staff for their assistance.

CYNTHIA M. GORTON,  
Librarian.

## Report of COMMISSIONER OF PUBLIC WORKS

*The Honorable City Council, Rutland, Vermont:*

Gentlemen:

In compliance with the charter of the City of Rutland, I am hereby submitting the annual report of the Department of Public Works for the year ending December 31, 1942, including the work done during the first three months of the year when Mr. William K. Nichols was serving as Commissioner.

Due to the war the year has been an unusual one with the Public Works Department. A great deal of contemplated new construction had to be omitted, while, on the other hand, certain new services, and precautionary measures had to be initiated. It has been the policy of this Department to cooperate with the war effort in every way possible and to plan for the safeguarding of the community in the event of sudden emergency, and to maintain the essential services vital to the health and well being of the city.

A zoning system has been set up for the city, with the voluntary cooperation of the Veterans of Foreign Wars, to take care of emergency repairs that might be needed in the event of an air raid. Each zone has a captain, who has under his command several helpers, tools, zone maps and a city truck. The system operates through a control center, and the various posts were promptly and efficiently manned during the blackout tests. Your Commissioner has completed two courses in Air Raid Protection work, one given by the F. B. I., and the other by Norwich University, under government sponsorship, that have been of value. The fact that the Rutland system has been recommended as a model for other cities is a source of modest pride to the Department.

The Department has also helped in setting up the aeroplane spotting post in the City, and has taken measures to safeguard the city water works. The entire personnel of the Department donated their services during the scrap drive, and the City furnished nine trucks for this purpose. This aided in gathering an unexpectedly large quantity of scrap. The Department also built a scrap bin, the avails of which were turned over to the City Treasurer for War Relief. This amounted to \$185.60.

The sixty miles of Rutland streets have been maintained in good condition. Due to the day by day uncertainty of how much tar and asphalt could be obtained by the City these materials were used only in the most badly worn places. A few sections had to be left in the rough, rather than being ripped and rolled, because without the necessary tar and asphalt to relay them they would stand the wear much better untouched. A constant patrol was made of the streets and patches were made in oiled surfaces before the breaks became too large. The Department was pleased to receive compliments on the appearance of the business section streets due to the regular cleaning given them.

The calcium chloride and salt treatment given to the ice and snow covered streets has had good results. It is possible to spread salt at the rate of 300 lbs. per mile in the center of the traveled way which dissolves the ice and snow when the temperature reaches 20° F., leaving a wide, bare strip in the center of the road.

While there is some opinion that salt or calcium may create scale on concrete road surfaces, this has not been found to be the case in Rutland. The salt is spread from a distributor, made by our own men from junk material, and is hung from the side of the truck in such a manner that the operator can drive on his own side of the road, without hindering traffic, and do an efficient job. There are now forty-nine boxes containing salt-treated sand set out about the City for the use of traffic. Incidentally, the discoloration of the snow is not caused by salt or sand, but is due to an unusual consumption of soft coal in the City this winter.

The equipment in the Street Department has been overhauled and repaired. The new tractor ordered in 1941 did not arrive until 1942 and was paid for out of the 1942 appropriation. Due to the rank growth of weeds and grass this year a mowing machine had to be borrowed several times from the State Highway Department and the City should own such a piece of equipment.

In accordance with an agreement between the airport contractor and the airport committee, several Street and Water Department employees worked at the airport from time to time, cutting into cordwood and hauling to the City Farm trees that were felled and pushed into tangled piles by the contractor. This was started on July 13th and was not the same wood cutting project that was in operation previous to that time.

Payment was made for the cord wood and for what logs were salvaged to the Street Department, and this department at the end of the year reimbursed the Water Department for the labor paid for by it. This operation provided occasional standby employment for a few employees and kept them available without expense. It also provided the Charity Department with wood at a less cost than it could have bought it elsewhere. This wood was put into piles at the poor farm for \$8.00 per cord. The government ceiling price is \$11.00 per cord. The Street Department delivered 383 cords at \$8.00 per cord under this operation, and also sold 50,516 Bd. Ft. of logs at varying prices for \$781.84 (including \$150.32 not yet paid). There was about \$430.00 worth of cord wood and logs cut and ready at the airport as of December 31, 1942. This operation by the Street Department cost \$4,431.39 for which it received \$4,938.32, including wood and logs cut and bills receivable as above.

The Sewer Department built seven new catch basins and one manhole; rebuilt ten catch basins and two manholes; repaired nineteen catch basins and five manholes; and completed a new sewer main on Highland Avenue started in 1941. The usual amount of work was done in repairing mains, removing sewer plugs, and checking on stoppages to see if they were private or public work. All private work was paid for by the property owners.

The General Department maintained the parks, the dump and incinerator, bridges, guardrails and culverts as usual. This year saw the removal of a number of unsightly stumps from Main Street Park and plans have been made to set out new trees to replace them. Many trees were cut or trimmed to beautify the city and avoid accident. The center pier on West Street bridge was repaired as were several culverts.

A daily estimate from August 17th to December 31st, 1942 showed a total of 15.1 tons of material brought to the dump each day. Of this amount 7.7 tons went over the dump, 6.2 tons into the incinerator, and 1.2 tons were composed of garbage. Except for some trouble in keeping the fire brick in position the incinerator worked efficiently throughout the year.

The Water Department installed a new lighting system between the reservoir and the intake dam, thus making flood lights available for night work. The chlorinating house was insulated, and the small reservoirs were thoroughly cleaned and crib work built into the stream banks to prevent their washing out.

In accordance with government regulations very little new material was bought by the Water Department this year. The only major items were some extra split sleeves for possible emergency repairs and a new instrument for testing residual chlorine and pH value was installed.

Hydrants were tested regularly and valve measurements were checked. Tool boxes and tools for air raid protection were placed in strategic positions. Plans have been made for an auxiliary water supply in case of emergency, but due to the difficulties in obtaining material, it has not yet been put into effect. The Water Department furnished a caretaker at the swimming pool to attend to valve and chlorine operations, and assistance was given at the airport.

In Mendon corners were marked on the City-owned land and this work will be continued. Lumber camps which had been occupying city land, without permission, were removed as a public health measure.

The annual precipitation for 1942 was 34.49 inches, and the average daily consumption of water was 178.4 gallons per person. The State Laboratory tests of Rutland's water were uniformly good. The total revenue of the Water Department was \$52,020.15; the amount spent by the Department was \$26,403.91.

During the year the number of men employed in WPA was greatly reduced. An average of 35 men worked on storm sewer construction projects sponsored by the Department of Public Works.

Six thousand three hundred and two feet of storm sewer were laid; nine manholes and twenty-seven catch basins constructed or rebuilt.

WPA Storm sewers were built as follows:

Location	Pipe	Length
Melrose Avenue.....	10"	606 ft.
No. Main Street (east side, Melrose to Clinton).....	10"	472 ft.
High Street.....	10"	996 ft.
Crescent Street (east end).....	10"	146 ft.
No. Main Street (west side, Crescent to Roberts).....	10"	798 ft.
Killington Avenue (Moon Brook to Stratton Road).....	12"	1,086 ft.

Stratton Road (Killington to Jackson)...	12"	810 ft.
Plain Street (Granger to Spruce).....	8"	421 ft.
Meadow Street (River to South).....	12"	375 ft.
South Street (Meadow to Forest).....	8"	592 ft.

Work was also started on Crescent Street east of Church to relay a section of existing storm sewer which was too small.

Much badly needed work in all departments has been done by Federal funds under WPA and preceding agencies. The WPA work will become a thing of the past early in 1943. It is estimated that in the past eight years the Department of Public Works has received about one and one-half millions of dollars worth of Federal Aid. This aid will be missed in the future.

The airport is located on 423 acres in Clarendon, five miles south of Rutland. The contract for construction and paving was let for \$514,845 on the basis of estimated quantities and is part of the Civil Aeronautics Administration Airport Construction Program authorized by an Act of Congress, June 28, 1941.

Construction work was started June 9th on MacArthur Field by the Fitzgerald Bros. Construction Co. of Troy, N. Y., under the direction of the District Engineer, United States Engineers' Office, New York, N. Y., who had full authority for the letting, execution, payments and supervision of the contract. The paving contractor was B. Simeone of Medford, Mass. Fitzgerald Bros. finished their drainage and grading contract in December, and Simeone finished the paving but did not complete the seeding and lighting work.

The North and South runway is 4,000 ft. long and the Northwest-Southeast runway is 3,500 ft. long. This paving is 150 feet wide, black top construction centered in a 500 ft. wide strip with 50 ft. margins at the ends.

The seeding and lighting work to be done under present contract should be completed early in 1943, and further funds have been promised at that time to build access roads, taxi strips, apron, etc.

At the airport a lumbering operation was done before the contractor started clearing the site. This was done to salvage some of the merchantable standing lumber that would have to be removed. In connection with this the cordwood which had been cut on last year's operation was picked up and hauled to the City Farm. Both lumber and cord wood brought varying

prices, depending on quality and accessibility. The total receipts to the airport for 589¼ cords of wood and 208,100 Bd. Ft. of logs came to \$6,794.87, for which the cost was \$2,597.41, or a net profit to the airport account of \$4,197.46. The total amount of wood supplied to the Charity Department from this operation and from the subsequent Street Department operation was 972¼ cords, and the total amount of logs sold was 258,616 Bd. Ft.

In addition to the special work done and mentioned in the preceding paragraphs the Engineering Department has done much routine line and grade, and survey work throughout the year. There has been one less employee in the office than during the preceding year.

The Department has not only kept within its income during the past year, but returned to the treasury for general tax purposes the sum of \$19,948.61, a sum which is approximately 20% of its total appropriation. This was made possible by rental of city equipment; the sale of cordwood; the reduction in road oil applied; discontinuance of new work, and general economy in the Department.

In conclusion I wish to express my appreciation for the sincere cooperation received from His Honor, the Mayor, the Honorable Board of Aldermen, other city officials, and the employees of this Department. May I add a further word of appreciation for the understanding shown by the citizens of Rutland in the problems faced by the department under war time conditions?

Respectfully submitted,

R. H. ROYCE,  
Commissioner of Public Works.

## Report of the PENSION BOARD

*To the Honorable City Council:*

Gentlemen:

For the fifth year of its operation, the City of Rutland Pension Plan which became effective January 1, 1938 has resulted in a net cost to the City of \$19,486.40. This figure is explained as follows:

Total Premiums paid to Insurance Co.....	\$24,201.05
Total Benefits paid to Pensioners.....	2,919.27
	<hr/>
	\$27,120.32
Less total amount of Employees' Contributions.	7,633.92
	<hr/>
	\$19,486.40

Since the start of the Plan, twelve employees have been retired, all receiving a minimum pension of \$400.00. Of these, five have died, leaving seven who are still on the retired list.

At the present time there are 155 contributing members, 88 from the School Department and 67 from the other departments of the City.

Several meetings of the Pension Board have been held for the granting of pensions, the issuance of permits to continue employment after the voluntary retirement age, and for the transaction of other business necessary to the successful operation of the Plan.

Under the first five-year review of the Plan, the following changes were adopted to be effective as of January 1, 1943.

1. The minimum pension is increased from \$400. to \$500., both to those now receiving benefits as well as those who will become eligible in the future.

2. The City assumes any proportion of an increase in the premium caused by lower interest rates now prevailing. Any credits for interest adjustments will accrue to the City. The employee's rate of contribution will remain at 3% of salary.

## PENSION BOARD

37

3. All unfunded back service is now funded. This effects all employees with more than fifteen years' service prior to January 1, 1938. They will now receive full credit for all their back service with the City when their pensions are finally paid.

4. Any employee entering the armed services of the United States either by induction or enlistment will be continued on the pension roll with no loss of service or cost to himself, for the duration. At present there are eight men in the armed forces who are members of the Plan: Frederick Atherton, Robert Lorette, Raymond Mooney, William Murphy, Arthur Olson, Hugh Olson, James Rice and Joseph Simonds.

5. The pension booklet has been revised somewhat and now includes clear information as to the method of determining pensions.

The next review of this plan will be made in 1947.

The budget requirements for 1943 will be \$29,000.00.

Respectfully submitted for the Committee,

ESME A. C. SMITH,  
Chairman.

## Report of the COMMISSIONER OF PUBLIC SAFETY

*To the Honorable City Council:*

Gentlemen:

I hereby submit to you my report as Commissioner of Public Safety for the year 1942.

### FIRE PROTECTION

**Employees—20 full time**                      **Expenditures—\$49,127.77**  
**Call Firemen—10**

The personnel of the Fire Department consists of one Chief Engineer, two Assistant Engineers, two Captains, fifteen Permanent firemen and ten call men. Also there are thirty Auxiliary firemen equipped with helmets, fire coats and boots. These men hold weekly drills and have been a wonderful help at all major fires. Three call men are doing permanent duty in place of Captain James Rice, firemen John Olson and Joyce Hurley who are in the armed forces.

The Department responded to 391 alarms, 144 less than last year. The Department also responded to 30 special service calls of various nature.

Total value of property involved was \$715,000.00, the insurance carried was \$533,100.00. At this time I cannot give you the total loss for the year as two losses have not been settled as yet. The loss excluding them is \$27,539.58 for fires that the department responded to and there were 31 claims for damages amounting to \$744.11 on fires that the department was not called to. There were only eight fires during the year that the loss amounted to \$1,000.00.

During the year two fire alarm boxes were damaged by automobiles and could not be replaced because of lack of priorities. One other box was damaged by lightning but that was repaired with material on hand. The usual work on the fire alarm System had to be omitted because of lack of material. The money appropriated for fire alarm maintenance and not used is included in the unexpended balance. The usual number of inspections were made during the year and several fire hazards were corrected.

Two buildings have been removed and one other building has been remodeled by order of the State Fire Marshal. Action will

be taken on two other buildings that we are trying to have removed as fire and health hazards. Parts of two buildings have been restricted from use by the public because of lack of suitable fire escapes and exits.

The cost of operating this department was \$49,127.77, the appropriation was \$49,904.45; received from out of town fires, etc., \$768.86, new truck \$8,225.00; total \$58,898.31; total expenditures \$57,343.16, leaving an unexpended balance of \$1,555.15.

### POLICE PROTECTION

**14 Regular Officers**                      **Expenditures—\$33,863.73**  
**1 Retired Officer**

The personnel of the Police Department consists of a Chief of Police, two Sergeants and eleven Patrolmen, some of the latter vacancies being filled at the present time by special officers.

I feel that this department is very much in need of the two more regular Patrolmen we have petitioned for, as the calls for special police duty are increasing all the time, for schools, crossings, etc. As it is impossible to take care of all of these, as well as the many accidents we have to investigate. As it is now we have to take men off the street to take care of these calls.

A new Chief of Police, Harold S. Potter, was appointed June 15th, and on September 7th, Charles A. Cassin and John L. Dinn were appointed Sergeants. This has been a help and improvement to the Department.

This last year has been an unusually sad year in this Department, owing to so many deaths. Chief W. P. Fox, Patrolman William Vondette, Patrolman John Morrissey, retired Patrolman P. A. Mangan, and Special Officer A. H. Paul. They were all faithful servants of the City.

### SCOUT CAR REPORT

**Miles Covered 20,010**

**Calls Answered 762**

**Arrests Made 122**

### MISCELLANEOUS DUTIES PERFORMED BY THIS DEPARTMENT

Arrests for all causes.....	244
Automobile accidents investigated.....	175
Number of cars tagged and fines paid.....	168
Number of automobiles reported stolen.....	12
Number of burglaries and breaks reported.....	13
Number of miscellaneous thefts reported.....	54
Number of business places and stores found open and locked by officers at night.....	323
Number of lights reported by officers.....	29
Number of transients who applied and received lodging	700

### POLICE CALLS

<b>162 Intoxicants</b>	<b>30 Automobile Violations</b>
<b>28 Breach of Peace</b>	<b>3 Violation City Ordinances</b>
<b>4 Petty Larceny</b>	<b>10 Vagrancy</b>
	<b>7 Miscellaneous</b>

The appropriation for this Department for the year was \$36,120.50, the expenditures being \$33,863.73, leaving an unexpended balance of \$2,256.77.

Great credit should be given the Chiefs of both departments for the fine showing in coming through the year with a substantial balance. This money is turned back into the general fund.

In closing I wish to thank Mayor Carpenter, the Board of Aldermen, the Chiefs of both Departments, as well as all the men connected with them, for the fine cooperation I have received the past year.

Respectfully submitted,

JAMES C. DUNN,  
Commissioner of Public Safety.

### OLD AGE ASSISTANCE DEPARTMENT

STATE HOUSE

Montpelier, Vermont

**Net cost to City—\$21,624.75**

For the information of your taxpayers, the customary annual statement is presented for your City report.

Payments of Old Age Assistance to persons applying from your town amounted to \$48,758 during the year January 1, 1942 to December 31, 1942.

The number of recipients in December, 1942 was 203.

As this program touches every community and many persons, we believe the public should know the following facts:

The increase in the cost of food, fuel, rents and services constitutes a serious problem to persons dependent on small fixed allowances and has been the cause of much concern to the Old Age Assistance Department which is responsible for the welfare of about 5,400 aged individuals now receiving assistance. In addition, there are some 500 eligible applicants who cannot yet be helped because sufficient state funds are not available.

The resources of this department and its ability to make grants are determined by the state appropriation which is matched by federal funds. The Legislature, conscious of the needs of the aged citizens of the state, has frequently given favorable consideration to this problem. The expenses of administering the program have been the lowest of any state in the Union on a comparable basis.

The advice and council of local officials and interested persons have been very valuable and are gratefully acknowledged.

Very sincerely yours,

W. ARTHUR SIMPSON,  
Director.

## Report of the WELFARE DEPARTMENT

*To the Honorable City Council:*

I hereby submit the following report for the year 1942.

The appropriation to the Department of Charities and Corrections was \$48,000.00. The department collected \$1,386.28 for support of families from other towns; \$873.57 from individuals; \$2,239.53 from other sources. The gross expense amounted to \$38,389.58. The net expense after refunds was \$33,890.20. A balance of \$14,109.80 remained in Charity Account at the end of the year.

The appropriation for the hospital was \$10,000.00. Refunds from Towns and Individuals amounted to \$975.43. The gross expense was \$10,948.93 and the net expense \$9,973.50. A balance of \$26.50 remained in Hospital Account at the end of the year.

The number of garments distributed to needy families from the WPA sewing project was 7,870. Mattresses and quilts were given from WPA projects which are now closed.

At the City Farm 29 inmates have been cared for, and 203 transients have been accommodated.

I want to thank all City officials for their assistance and cooperation during the year and to those in the Charity Department for their efficient services.

Respectfully submitted,

O. S. BERGSTROM,  
Overseer of Poor.

## Report of the DISTRICT NURSE

**City's appropriation—\$450.00**

*To the Honorable City Council:*

Gentlemen:

The Rutland Missionary Association sponsors the district nursing service of this city.

Its purpose is the care of the sick and infirm, the welfare of the aged, and the care of children in homes of the less fortunate.

Emergency cases have been taken care of through the generosity of interested individuals who have contributed clothing, furniture, and money. With funds thus received, medicine, milk, eggs, cod liver oil, fruit, fruit juices and food have been purchased.

Thanksgiving baskets were provided for many deserving families by the school children, through the school nurses, Miss Ann Hinchey and Miss Elizabeth Keefe.

At Christmas, many children were remembered with clothing and toys. Christmas dinners were distributed to 100 families through the generosity of the Elks, Eagles, Lion's Club, Salvation Army, Mt. St. Joseph Convent, Catholic Daughters, Junior Catholic Daughters and Meldon School.

Layettes, clothing, mattresses, blankets and comforters were made under the direction of the W.P.A. Sewing and Mattress Projects of this city and were placed at my disposal to be given as I found need.

Families visited.....	147
Calls made.....	2,560
Welfare calls.....	233
Prenatal calls.....	49
Maternity cases.....	12
Paid patients.....	14
Layettes distributed.....	10
Food.....	17
Clothing.....	50
Surgical dressings.....	35

Drugs.....	35
Furniture.....	3
Bedding.....	20
Money.....	4

The expense for the year has been as follows:

Salaries for nurses..... \$1,218.00

This was met by the City's appropriation of \$450.00 and fees from paid patients, which were \$505.50; the balance \$262.50 was paid by the Rutland Missionary Association.

In conclusion, I wish to express my appreciation to Mayor Carpenter and all in the Charities department, for their splendid cooperation at all times.

Respectfully submitted,

OLIVE H. WESTIN,  
District Nurse.

## WORKS PROGRESS ADMINISTRATION

The Work Projects Administration's program in Rutland is being terminated on January 31, 1943 after six and one-half years of operation beginning in July 1935. Prior to that time a program of work relief under which Federal funds were provided for labor on municipal projects was operated from November 1933 to April 1934 by the Civil Works Administration and from April 1934 to July 1935 by the Vermont Emergency Relief Administration.

Employment on the many WPA projects in the City of Rutland has varied in inverse ratio with the level of private employment. Its projects, while in the main devoted to such works as various types of street and road construction, sidewalks, curbs and gutters, works that insure a pure water supply and a satisfactory system of sewage disposal, and other useful public works, also have included education, health, recreation, art, music and other projects that gave employment to trained professional and clerical workers. It has employed many women as well as men—the total number of Rutland residents employed by the Work Projects Administration during its existence is 1357. The maximum number of project workers employed in Rutland at any one time reached 850 (700 men, 150 women) in February of 1938. This number has declined to a total of 79 (46 men, 33 women) employed during the last week of December 1942.

During the calendar year of 1942 the following WPA funds were spent for projects operated in Rutland:

### SERVICE PROJECTS

The administrative office of the Work Projects Administration has occupied the Odd Fellows Building on Court Square since moving to Rutland from Montpelier in October 1939. The largest number of administrative employees at any one time since that date has been 110. This number has declined to 19 on December 31, 1942. Detailed figures are as follows:

Year	Amount of Payroll	Avg. No. of Employees
1939		
(3 mos. only)	\$31,331.96	95
1940	122,730.30	89
1941	108,283.32	73
1942	79,518.15	44
	\$341,863.73	

HENRY B. CARPENTER,

Mayor.

## Report of the CITY ATTORNEY

*The Honorable City Council:*

Gentlemen:

I hereby submit my report as Attorney for the City of Rutland for the year ending December 31, 1942.

The past year has called for an unusual amount of legal work for the City of Rutland. Because of the inability of landowners in Clarendon to agree with the City on a price for the land needed for the construction of MacArthur Field by the Federal Government it was necessary to hold a long series of condemnation hearings to obtain the desired land. These hearings ended with the City obtaining the property for a much lower price than had been demanded by the owners. In addition to the several weeks of constant attendance needed at the various hearings, the City Attorney had numerous conferences with various officials, landowners, and representatives of construction companies throughout the year on the different matters relating to title at the airport.

It is a pleasure to report that the matter of the back taxes of the Colonial Marble Company have been settled during the past year. As the result of various court hearings in the State of Delaware, and of agreements made with the holder of the Trustee's title, the sum of \$23,911.84, being taxes and penalties due the City of Rutland since 1937, were collected by the City Attorney and turned over to the City Tax Collector.

A number of minor suits were brought during the year in behalf of the City Tax Collector against delinquent taxpayers, all of which ended in the payment of the sum due. Your attorney cooperated with the Charity Department in the collection of various sums of money due that department from various individuals and communities.

Your attorney worked with the members of the Charter Revisions committee on the proposed changes to the present City Charter. This work was done outside of regular office hours, and the Charter Revisions are now complete. Considerable work is still needed to bring the ordinances up to date.

A complete new Light and Poles Ordinance was drawn up during the past year with the cooperation of Chairman J. Fred

Carbine of the Light and Poles Committee, and the same was passed after a number of hearings were held which were attended by various interested parties. A revised Pension Ordinance was also drawn with the cooperation of the Pension Board, and was passed by the City Council.

More than fifty written opinions were delivered by the City Attorney during the past year, and nearly all aldermanic sessions were attended for the purpose of answering legal questions that might arise.

At the present time there are no lawsuits pending against the City.

May I take this opportunity to express my appreciation for the cooperation and understanding that I have received throughout the past year from His Honor, The Mayor, The Honorable Board of Aldermen, and its various committees, and the department heads and employees of the City.

Very truly yours,

MILFORD K. SMITH,  
City Attorney.

## Report of the HEALTH OFFICER

*To the Honorable City Council:*

Gentlemen:

It is the pleasure of your Health officer to submit herewith his annual report for 1942.

The Health Department is composed of a three-man Board of Health and a Health Officer who also acts as plumbing inspector.

Through this department is maintained the control of communicable diseases, inspection services for the maintaining of sanitary plumbing facilities, swimming pool and other places of public assemblage.

The following contagious diseases were reported and quarantined during the year 1942:

Mumps.....	381
Measles.....	239
Whooping Cough.....	148
Chicken Pox.....	41
German Measles.....	18
Diphtheria.....	1

As you will notice there was but one case of diphtheria, which speaks well for the yearly free immunization which is offered to the children of the first and second grades. This year 173 children were so immunized. The work was done by Drs. Hodsdon, Reedy, and Beale of the Board of Health. Also in the spring 165 children availed themselves of the free clinic for vaccination for smallpox. This was done by Drs. Hodsdon, Reedy, and Belle-rose of the Board of Health.

Daily samples from the city water supply were sent to Burlington for analysis. There were no contaminations reported. Several inspections of the city reservoir were made and conditions there were found excellent on all occasions. Much credit should be given Commissioner Royce for the splendid condition and appearance of the city water works.

Daily samples from the Municipal Pool were also sent to Burlington. There were no contaminations reported.

The Health Officer made 10 plumbing inspections and investigated 43 nuisance complaints.

Several inspections of food handling establishments were made and conditions on the whole were found to be good.

Three venereal disease contacts were investigated at the request of army and navy officials.

Six cases of unattended death were investigated.

In October it was my pleasure to represent the City at the Seventy-first annual meeting of the American Public Health Association. I feel that I gained much in enthusiasm and much in general knowledge of the responsibilities of this office. These responsibilities are much more than the tacking up of signs. They call for a working knowledge of preventive medicine, which is the essence of Public Health, and the ability to put this knowledge to use for the betterment of the City. My full report of this convention is on file in the City Clerk's office.

In closing I would like to express my appreciation for the courtesy and cooperation that I have received from the City officials, the Board of Health, and the Physicians and parents of Rutland.

Respectfully submitted,

CHARLES D. BEALE, D.O.,  
Health Officer.

## VITAL STATISTICS

*To the Honorable City Council:*

I hereby submit the following report on Vital Statistics as filed in the Clerk's Office:

Total number of births registered in 1942..... 591

Total number of marriages registered in 1942..... 157

Total number of deaths registered in 1942..... 370

### Births Registered in Rutland—Years 1930 to 1942 incl.

Year	Total No. Registered	Residents other than Rutland	Rutland residents only
1930.....	385	109	276
1931.....	404	127	277
1932.....	347	109	238
1933.....	329	112	217
1934.....	403	132	271
1935.....	405	129	276
1936.....	453	156	297
1937.....	432	172	260
1938.....	475	200	275
1939.....	474	173	301
1940.....	475	195	280
1941.....	555	263	292
1942.....	591	274	317

A detailed list of births in Rutland in the year 1942 with names of parents is shown elsewhere in this report.

Paint Shops . . . . .	1
Sheds . . . . .	5
Tool Houses . . . . .	2
Booths in Theatres . . . . .	1
Marquees . . . . .	1

Respectfully submitted,

C. G. NOYES,  
Inspector of Buildings.

## Report of CONSTABLE AND TAX COLLECTOR

*To the Honorable City Council:*

Gentlemen:

I respectfully submit the following report of my work as City Constable and Tax Collector for the year 1942:

**The collection of Delinquent Taxes turned over to the City Treasurer amounted to \$39,478.30 from January 1st to December 31st, 1942.**

The long-idle plant of the Northern (Colonial) Marble Corporation, which has been the subject of controversy for years, because of its arrears in back taxes, was finally brought to a successful conclusion, by payment of all tax liens on the property. Legal proceedings were first instituted by Mr. Peter Bove, former City Attorney and were brought to successful conclusion by City Attorney Milford K. Smith and credit should be given both attorneys for their efforts in bringing the matter to a head after various attempts were made to block the advertised tax sale.

Several other tax sales were held after every effort was made for payment of tax liens that were in arrears for several years. I am pleased to say these were successfully discharged. During the past year, 906 Poll and Old Age Assistance taxes were collected and due to the World War No. 2, many of our citizens have been called to the colors who otherwise would have paid their obligation to the City. A large proportion of these have been exempted from paying.

On August 17, 1942, the Board of Aldermen instructed the City Treasurer to turn over to me the delinquent water taxes amounting to \$2,263.59 for the years 1933 to 1941 inclusive. Of this amount \$1,047.92 has been collected and turned over to the City Treasurer.

In conclusion, I wish to acknowledge my sincere thanks and gratitude to His Honor the Mayor, The Honorable Board of Aldermen, The City Attorney and all department heads and assistants for their cooperation given to me at all times.

Respectfully submitted,

JOHN J. CARBINE,  
City Constable and Tax Collector.

## Report of the MEAT and MILK INSPECTOR

*To the Honorable City Council:*

I wish to make the following report of my activities as Meat and Milk Inspector for the City of Rutland.

Monthly inspections of all meat markets have been made in accordance with the City Ordinance, and their condition reported to the Aldermen.

All animals killed in the City for human consumption have been inspected and doubtful carcasses rejected and destroyed. Inspection fees were received as follows, and \$1,035.75 turned over to the City Treasurer:

459 cattle	@ \$1.00	\$459.00
22 swine	@ 1.00	22.00
37 lambs	@ .25	9.25
1,091 calves	@ .50	545.50
		<hr/>
		\$1,035.75

Periodic inspections have been made of all farms, dairies and creameries licensed to handle milk and cream in the City, and their condition reported to the Aldermen. Milk licenses issued amounted to \$394.00, and this was turned over to the City Treasurer. Licenses were issued as follows:

64 producers  
17 distributors  
5 wholesalers  
33 restaurants  
50 stores

Approximately 450 milk samples have been taken, analyzed by the Laboratory of Hygiene in Burlington, and a summary of the reports have been given to the Aldermen and published in the Rutland Herald.

Respectfully submitted,

N. H. COX,  
City Meat and Milk Inspector.

## WARD OFFICERS

Elected March 3, 1942

Ward	Ward Clerk	Inspectors of Election
1.	*Frank W. Johnson	Edward S. Pike, 1st Kendrick E. Day, 2nd Timothy E. Howley, 3rd

## First Regiment Infantry VERMONT STATE GUARD

The security of the First Militray Area of Vermont, which comprises a little over four and one half counties in the southern part of the State, is the responsibility of the First Battalion Vermont State Guard Companies, commanded by a staff with Headquarters in the Rutland Memorial Armory:

Major	John L. Cootey	Commanding
Captain	Wilfred J. Perry	Executive Officer
1st Lt.	Harold E. Stafford	Adjutant
	Ralph J. Bugbee	Sergeant Major
Major	Weston C. Hammond	Medical Officer
Captain	James S. Dennis	Intelligence Officer

One of the nine crack Companies in the First Battalion is RUTLAND'S COMPANY "A" stationed at the Rutland Armory and commanded by:

Captain Edward M. Copps

1st Lt. Robert G. Morse	2nd Lt. George V. Videll
-------------------------	--------------------------

The enlisted personnel consists of 50 men:

Sgt. Howard W. Douglas	Pvt. Frank N. Bancroft
Sgt. John K. Canfield	Pvt. Percy P. Bliss
Sgt. Gus G. Corsones	Pvt. Ralph T. Brown
Sgt. James T. Haugh	Pvt. Lynn Z. Cady
Sgt. Raymond J. Messer	Pvt. Maxwell W. Carleton
Sgt. Peter J. Roberts	Pvt. Carlton L. Champine
Sgt. Guy W. Whitcomb	Pvt. Tremaine C. Conkling
	Pvt. John R. Dumouchel
Corp. Harold A. Carmichael	Pvt. Elvio J. Filippo
Corp. Paul P. Cassidy	Pvt. George T. Fruen
Corp. John D. Crandall	Pvt. Paul F. Fuller
Corp. Foster F. Nye	Pvt. Robert C. Hayes
Corp. Louis Rome	Pvt. Donald T. Hubbard
Corp. Robert G. Wilson	Pvt. Eric C. Lee
	Pvt. Gordon H. Lee
Pfc. Warren L. Eddy	Pvt. Charles H. Littler
Pfc. Morris Gittenplan	Pvt. Robert W. Mitchell
Pfc. Richard G. Heinz	Pvt. Francis J. Moscattello
Pfc. John E. Hill	Pvt. Fred S. Pixley
Pfc. John Liptak	Pvt. George A. Shover
Pfc. Walter G. Manley	Pvt. Paul F. Terenzini
Pfc. William A. Ryer	Pvt. Hugh R. Weir
Pfc. Earl B. Smith	Pvt. Donald J. LaSante
Pfc. Elwin L. Smith	Pvt. Maurice E. Walbridge
Pfc. Allan L. Taussig	Pvt. Clyde J. Lavalle
Pfc. Benay O. Trombetta	Pvt. Everett G. Utley

Note: At this writing, 58 additional men have just enlisted in the Company "A" Reserves.

## Rutland Area Scene of War Games

Early last October, State Guardsmen clashed with regular Army troops in a mock invasion. Rutland's Company "A", commanded by Edward M. Copps gave a good account of themselves. Pictured above State Guardsmen hold a critique at Sherburne Pass.

Rutland has been the focal point for many war games of the Vermont State Guard and the U. S. Security Troops. Pictured above State Guardsmen and Federal Officers hold a critique following a successful attack on the area.

# Honor Roll

## For National Defense

### PERSONNEL IN SERVICE WORLD WAR II

That proper recognition may be given to all persons from the City of Rutland, who are serving our Country in the World War now in progress, the City Clerk's office is compiling a list and at a later date, a card index record will be compiled.

The following list of persons in service is incomplete and may be incorrect in some cases, hence it is requested that relatives, friends and organizations cooperate in the correction of this list by either notifying the local Chamber of Commerce or the City Clerk's Office in writing of any corrections or additions that should be made.

Respectfully,

FRED C. SPENCER,  
CHAS. H. LANDON,  
ROBERT D. SMITH,  
Sinking Fund Commissioners, City of Rutland, Vermont.

# REPORT OF AUDITORS

To the Honorable City Council:

Your auditors have audited the books of the City Treasurer, City Clerk, Overseer of Poor, Superintendent of Schools, City Constable, and Sinking Fund Commissioners, from January 1, 1942 to December 31, 1942, inclusive, and we hereby certify that in our opinion, they have duly accounted for all monies received by them, as evidenced by the books and records on file.

We find the records of disbursements as shown by the City Clerk and Superintendent of Schools in agreement with the entries on the books of the City Treasurer. We have checked the cash and verified the bonds, deposit books and securities in the hands of the City Treasurer and Sinking Fund Commissioners and have checked incomes back to their original sources of entry and found them to be correct.

The books of the City Treasurer are in their usual excellent condition and very clearly show the city's true financial condition on December 31, 1942, and the result of operations for the twelve months period then ended.

Respectfully submitted,

A. TUTTLE PATTERSON,  
WARREN G. GOODRICH,  
FRANCIS J. CASAVAW,  
Auditors.

POLLS, GRAND LIST AND TAXES ASSESSED FROM 1894 TO 1942, INCLUSIVE

Year	Polls	Grand List	Tax Rate	Intangible List Group 1	Tax Rate	Tax	Intangible List Group 2	Tax Rate	Tax	Total Tax
1894	2,625	\$81,919.73	\$1.50							\$122,879.60
